

Amit Naneshwar Nagpure

Full Stack Developer

+91-8668263440 ◇ amitnagpure555@gmail.com ◇ Pune, Maharashtra, INDIA ◇ Portfolio ◇ LinkedIn

SUMMARY

Full Stack Developer with 3.3 years of experience specializing in scalable web applications and real-time industrial monitoring systems built on **React.js, TypeScript and Node.js**. Expertise in **OPC UA integration, Socket.IO/WebSocket** streaming and **SQL Server/PostgreSQL** data pipelines to deliver low-latency dashboards and multi-user factory monitoring. Proven ability to implement secure **RBAC and JWT authentication, design robust RESTful APIs, and produce auditable exports** and activity logs that satisfy pharmaceutical and regulated-industry compliance requirements. Builds event-driven architectures and **optimized database schemas** to accelerate reporting and telemetry retrieval while maintaining auditability. Collaborative engineering partner who delivers clean, maintainable code and **cross-functional** solutions for manufacturing and enterprise environments.

EXPERIENCE

Software Engineer

May '23 — Present
Pune

Cognizant India

- Developed secure enterprise web applications using **React, TypeScript, Node.js and PostgreSQL** for regulated clients in the pharmaceutical domain.
- Implemented role-based access control and **JWT authentication; automated** user access request workflows and **integrated PDF** exports for auditability (jsPDF, Swagger).
- Designed and delivered **RESTful APIs** and database schemas optimized for secure **CRUD** and reporting operations; reduced average **report generation time by 30%** through query and index tuning.
- Designed and implemented a real-time factory floor monitoring system integrating **OPC UA controllers** with **React frontend and Node.js/Express backend**, implemented **Socket.IO/WebSocket** streaming, persisted telemetry to SQL Server with Sequelize, and created efficient analytics queries to deliver **low-latency dashboards** and event notifications for sensors, pallet movement, and station status.
- Optimized **PostgreSQL** database schemas and tuned complex queries to improve secure **CRUD and reporting performance** while preserving auditable activity logging required for regulatory compliance.

SKILLS

Frontend & Frameworks JavaScript, TypeScript, React.js, Vite, Redux (state management)

Backend & Real-time Node.js, Express.js, REST APIs, Event-driven architecture, Socket.IO / WebSocket

Industrial / IIoT OPC UA, OPC Clients/Servers, IIoT integration, Real-time systems

Databases & ORM SQL Server, PostgreSQL, Sequelize, MongoDB, SQL

Tools & DevOps Docker, Git, Azure Data Factory, Swagger, jsPDF

UI / Styling HTML5, CSS3, Flexbox, Bootstrap, Responsive Design

Security & Architecture RBAC, JWT, Security best practices

PROJECTS

Industrial Monitoring System, Cognizant India

- Developed a **real-time industrial monitoring** and analytics system for manufacturing plant using **React.js, TypeScript, Node.js**, and Express.js
- Integrated **OPC UA industrial controllers** with **Socket.IO** and **WebSockets** to process telemetry with **sub-100ms latency** across multi-user LAN environments.
- Engineered interactive dashboards to monitor factory stations, pressure sensors, and equipment status, **utilizing SQL Server** with **optimized queries** for telemetry reporting.

PharmaCorp Access Management System

- Engineered a full-stack enterprise access management system for a pharmaceutical plant using **React.js, TypeScript, Node.js**, and **Express.js** to automate user access request workflows.
- Implemented secure Role-Based Access Control (RBAC) with **JWT authentication/authorization** across multi-role dashboards (Super Admin, Admin, and Approver).
- * Automated *user access request workflows* with approval tracking, status management, and activity logging.
- * Designed and implemented *RESTful APIs* using Node.js and Express.js for CRUD operations and workflow management.
- Developed audit-ready **activity logging and PDF export functionality** using **jsPDF** to ensure strict compliance with pharmaceutical regulatory standards.

EDUCATION

B.Tech / B.E. — Electrical in Electrical Engineering, Kavikulguru Institute of Technology and Science, Ramtek (GPA: 9)

Jun '15 — Aug '20
Maharashtra
